IDENTITY / LEGAL RELATIONSHIP

About Shatloa Medical

Healthcare supply requires more than a product list. It requires clear specifications, appropriate regulatory documentation and a commercial relationship that understands the demands of different clinical environments.

Shatloa Medical is the medical devices and consumables division of Shatloa Trading (Pty) Ltd, a South African company registered in 2013. The company holds a SAHPRA licence covering the documented distribution, import and export of medical devices across Classes A-D, excluding IVDs. This is establishment scope, not individual product approval.

Our approach is founded on clear communication, responsible consideration of each requirement and relationships built for continued business.

Our medical identity is developed for institutional procurement, private healthcare and specialist sourcing enquiries, with an emphasis on clarity from first requirement to proposed supply arrangement.

LEGAL ENTITY

Shatloa Trading (Pty) Ltd

Registration 2013/209295/07

MEDICAL DIVISION

Shatloa Medical

One legal entity. A distinctly presented medical division.

LEADERSHIP / ACCOUNTABLE CORRESPONDENCE

Thage Phasha

MANAGING DIRECTOR

Thage Phasha leads Shatloa Trading (Pty) Ltd and its focused medical division. His leadership connects the company's South African corporate foundation with a medical supply offering built around considered sourcing, commercial engagement and clear communication.

For institutional buyers, commercial clients and prospective partners, Shatloa Medical offers an executive point of contact and an approach that gives each requirement the attention, documentation and commercial consideration it calls for.

OUR ENGAGEMENT APPROACH

Our Approach

From a defined requirement to an informed supply discussion.

01

Requirement

Review the application and specifications.

Define the product, intended application and purchasing requirements.

02

Sourcing

Explore suitable product and supply options.

Consider the specification alongside sourcing feasibility.

03

Compliance review

Assess documentation and jurisdiction-specific requirements.

Review product suitability and the relevant regulatory context.

04

Supply arrangement

Clarify quotation, availability, terms and fulfilment before commitment.

Discuss the proposed arrangement with the buyer.

Each enquiry is assessed individually. Availability, documentation, commercial terms and supply arrangements are confirmed before commitment.

CAPABILITY REGISTER / 1 OF 3

Product Portfolio

Examples guide enquiries; they do not indicate current stock. Availability, specifications and applicable documentation are confirmed per requirement.

DEPARTMENT 01 / 09

Critical Care & Anaesthesia

Supporting clinical requirements in critical care and anaesthesia.

Central venous catheter (CVC) sets · Endotracheal tubes (ETT) · Suction units

DEPARTMENT 02 / 09

General Ward & Theatre Consumables

Everyday consumable requirements for ward and theatre environments.

Gloves · Drapes · Syringes · PPE

Category enquiries: +27 74 366 9189. Include the department, specification and quantity, if known.

ASSESSMENT BEFORE COMMITMENT

A specific need. A considered way forward.

Specification · Context · Assessment

Not every clinical requirement fits a standard catalogue. Shatloa Medical welcomes enquiries involving specialised medical devices, equipment and consumables. Each enquiry is considered in relation to product specifications, sourcing feasibility and the applicable regulatory and commercial requirements.

CONSIDERED TOGETHER

- Product specifications
- Sourcing feasibility
- Regulatory requirements
- Commercial requirements

Assessment precedes any commitment. A specialist enquiry is not a guarantee of availability or fulfilment.

BUYER ENVIRONMENTS

Markets Served

Different clinical and commercial contexts. A considered response to each requirement.

01 / ENQUIRY ENVIRONMENT

Institutional Healthcare

Public hospitals, departments of health, defence-related medical facilities and institutional purchasers.

02 / ENQUIRY ENVIRONMENT

Private Healthcare

Hospitals, day clinics, specialist practices and healthcare groups.

03 / ENQUIRY ENVIRONMENT

Corporate & Regional Healthcare

Mining and industrial medical facilities, occupational-health providers, NGOs and eligible regional purchasers.

We welcome procurement and partnership enquiries from these healthcare environments.

SOUTH AFRICAN FOUNDATIONS

Regional Reach

South Africa is our primary market. We also consider appropriate regional procurement enquiries, with cross-border requirements reviewed against product specifications, destination-market rules, relevant permissions, logistics and suitable supply arrangements.

The approach is structured for regional opportunity without assuming the same regulatory or commercial conditions in every market.

PRIMARY MARKET

South Africa

REGIONAL PROCUREMENT CONSIDERATIONS

01 Product specifications

02 Destination-market rules

03 Relevant permissions

04 Logistics & suitable supply arrangements

Regional enquiries are assessed individually against destination-market requirements and suitable supply arrangements.

DATED EVIDENCE / CLEARLY ATTRIBUTED

Compliance & Quality
